

Fire Board Liaison Report for September, 2007

Due to a schedule conflict, I was unable to attend the September meeting of the Fire Board.

The Genesee Fire & Rescue group hosted an open house for all residents of their district on Saturday, September 29th. An exact count of visitors was not kept.

The department's flu shot program was once again well received. There were 97 individuals who received a flu shot while attending the open house.

Free food is always a good drawing card and the department gave out a combination of 450 hamburgers and hotdogs at the event.
